

Annual Meeting Promotional Opportunity

2010 International Annual Meetings Program

This new and exciting publication will be distributed onsite to more than 3,500 attendees at the International Annual Meeting on October 31-November 4 in Long Beach, CA. The Program represents an opportunity for exhibitors and sponsors to reach their target audience of buyers and those that influence buying decisions.

This meeting has been held for over 100 years so we have to be doing it right! Our attendees include research scientists in crops and soils, professional agronomists, university professors as well as undergraduate and graduate students.

As a full-sized publication, the Program is easy to use since the ad sizes are the same as our standard publications. With all the latest information on meeting times, speakers, special events, floor plans and travel information, the Program will be used and appreciated by attendees who will reference it time and time again throughout the entire event and will likely retain it as a resource back at the office.

So, don't miss your chance to advertise in the ONLY publication distributed to all registered attendees. Put your message literally in their hands!
