

Peer-reviewed Journals

www.scijournals.org

Individuals publish their research findings in our prestigious, peer-reviewed scholarly journals, available online. These journals are relevant, highly cited, and well-indexed by Google, ISI Current Contents, GeoRef, AGRICOLA, PubMed, Chemical Abstracts, and more.

Agronomy Journal

Circulation: 3,200

<https://www.agronomy.org/publications/aj>

An international journal of agriculture and natural resource sciences, *Agronomy Journal* is published bimonthly by ASA, with articles relating to

original research in soil science, crop science, agroclimatology and agronomic modeling, production agriculture, and computer software.

Crop Science

Circulation: 3,200

<https://www.crops.org/publications/cs>

Crop Science, published bimonthly, is the official journal of CSSA. Original research is published in: crop breeding and genetics; crop physiology and metabolism; crop

ecology, management, and quality; seed physiology, production, and technology; turfgrass science; forage and grazinglands; genomics, molecular genetics, and biotechnology; and plant genetic resources. *Crop Science* also publishes invited review and interpretation articles and perspectives that offer insight and commentary on recent advances in crop science.

Journal of Plant Registrations

Circulation: 3,200 + Open Access Online

<https://www.crops.org/publications/jpr>

The *Journal of Plant Registrations* publishes cultivar, germplasm, parental line, genetic stock, and mapping population

registrations, as well as perspective or review papers on historical plant material, the registration process, and related topics. Its purpose is to present new scientific information and impact future research by providing a description of new plant material to scientists worldwide. *JPR* is published three times a year, shipping with *Crop Science*. It is an open-access journal, available free online.

Soil Science Society of America Journal

Circulation: 2,900

<https://www.soils.org/publications/sssaj>

Soil Science Society of America Journal, published bimonthly, is SSSA's official publication. It is highly cited and contains re-

search relating to: physics; chemistry; biology and biochemistry; fertility and plant nutrition; genesis, morphology, and classification; water management and conservation; forest, range and wildland soils; nutrient management and soil and plant analysis; mineralogy; and wetland soils. Reviews, comments, and book reviews are also published.

Journal of Environmental Quality

Circulation: 2,400

<https://www.soils.org/publications/jeq>

Journal of Environmental Quality is published bimonthly by ASA, CSSA, and SSSA. Papers in *JEQ* are grouped by subject matter:

heavy metals in the environment; plant and environment interactions; organic compounds in the environment; surface water quality; ground water quality; ecosystem restoration; vadose zone processes and chemical transport; waste management; atmospheric pollutants and trace gases; landscape and watershed processes; wetlands and aquatic processes; biodegradation and bioremediation; and ecological risk assessment.

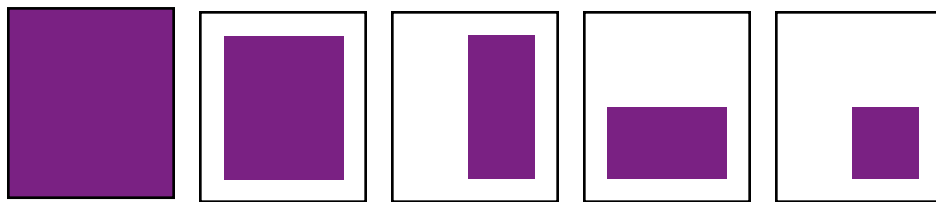

Journal of Natural Resources and Life Sciences Education

Circulation: 600

<http://www.jnrlse.org/>

Written by and for educators, *JNRLSE* covers all disciplines in the life sciences, natural resources, and agriculture. Published by ASA, the journal is interdisciplinary, with nine cooperating associations. It is published continuously in electronic form, with a year-end compilation hard copy and optional CD.
