

Journal of Environmental Quality

<http://jeq.scijournals.org>

The *Journal of Environmental Quality* fills a vital role in environmental science by providing an outlet for significant research relating to the biogeochemical cycling of contaminants in natural and agricultural ecosystems. Emphasis is given to the understanding of underlying processes rather than to monitoring.

**Essential
Reference
for**

Researchers from industry, university, government, or elsewhere interested in some aspect of environmental quality in natural and agricultural ecosystems.

Journal of Environmental Quality

Published by the American Society of Agronomy, Crop Science Society of America, and Soil Science Society of America.
